

Chief, Personnel Branch

8 July 1948

Chief, FBIB

Recruitment of Technicians for FBIB

1. Reference is made to previous correspondence and telephone conversations on the subject of recruiting technicians on a temporary basis to assist FBIB engineers with the installation of equipment in the new FBIB stations now in various stages of planning and construction.
2. The three technicians requested for Cyprus can be used as soon as they can be placed on the payrolls.
3. It is expected that the U. S. Army Engineers will have advanced the construction of the East Coast Mission at Hedgeneck, Maryland, sufficiently to utilize the three technicians for that project on or about 1 October 1948.
4. The Okinawa project is expected to be sufficiently advanced to utilize the three technicians for that project on or about 1 January 1948.
